Date of Birth: 12th March 1979
Nationality: British

Sex: Male

Yee - Ting Li

Education

- 1997–Present **University College London, London**
Final year of **MSci Physics** degree
Yearly average; 1st Year: 76%, 2nd Year: 83% and 3rd Year: 84%
Expected class of degree: **First Class**
- 1995–1997 **Sir George Monoux College, London**
'A' Levels (3); Chemistry (B), Mathematics (A), Physics (A)
'A/S' Levels (2); Further Mathematics (A), Computing (B)
- 1991–1995 **Warwick School for Boys, London**
11 GCSE's, 3 A*'s, 6 A's, 2 B's, including,
A* in Mathematics, 2 A's in English (Language and Literature)

Work Experience

- 1995–Present **Assistant Manager, John's Fish Bar, London**
Working with my parents has given me valuable skills, such as working under pressure and multitasking in a busy environment.
Responsibilities: Ensuring smooth running of the store, customer service and looking after the business in absence of the manager.
- August 1998 **Personal and Marketing Assistant, Monet Jewellers, London**
A secretarial role that required motivation and initiative. Working with an international company exposed me to global markets and services.
Responsibilities: Preparing sales proposals for colleagues, assisting with recruitment contracts and documents, and liaising with resource managers.
- July 1996 **CAD Operator, Hawker-Sidley Power Transformers, London**
I was able to demonstrate my initiative and ability to learn quickly by learning and using industry standard applications in a commercial environment.
Responsibilities: Designing, amending and validating CAD designs of power transformers used in industry.

Extra-Curricular Activities

- 2000-2001 **Japanese Language Classes, UCL Language Centre, London**
I have recently started Japanese lessons in university because of personal interest, and the potential of broadening of my future career prospects. I particularly enjoy the challenge of learning another language and culture.
- 1999-2000 **Treasurer - Cultural Carnival, UCL Union, London**
Cultural Carnival is a week of events with the aim of increasing cultural awareness.
Responsibilities: I was involved in the proposition and execution of major sponsorship deals, one of which is a large investment bank. I also managed general finance issues such as budgeting events and societies.

1998–1999

President - Association of British And Chinese University Students, UCL Union

ABACUS is a cultural society that aims to unify and aid Anglo-Sino relations.

Responsibilities: As president, I was directly involved in everything from marketing the society, liaising with external companies and organisations, organising events, collaborating with committee, and promoting teamwork, enthusiasm and focus.

Skills

Analytical and Numerical

- Studying Physics with Management options has enhanced my analytical, numerical and problem-solving skills by applying theory into practise. It has also increased my enjoyment of resolving complex situations and finding solutions to difficult problems through personal initiative and team effort.
- I am currently undertaking a final year solo project at university that requires in-depth understanding of both statistical and physical processes, self-motivation, organisation, thorough research, and the design and creation of a computer simulated model.

Team Work

- I was appointed the Project Leader in a third year university group project on an important scientific breakthrough. My team won the best group prize for excellence.
- My involvement in ABACUS and Cultural Carnival has allowed me to play both a leading and a supportive role on matters such as project planning and organisation.
- Through these roles, I have obtained great insight into the responsibility of managing people and resources, preparing and coordinating events, and maintaining team spirit.

Communication

- As part of my degree, I studied courses in Science Communication. I completed a major thesis on quantum computation, and have experience in delivering presentations on group and individual project assignments to large and small audiences.
- Working in project teams for my degree as well as my activities with UCL Union has improved my interpersonal and communications skills to articulate other people's views, my own personal opinions and explaining complicated solutions.
- *Languages:* English (Fluent), Cantonese (Intermediate) and Japanese (Basic)

Motivation and Initiative

- My personal interest in Financial Markets and Businesses led me to choose to study Management options in my final year at UCL: Project Management (accredited by the Association of Project Managers), Business in a Competitive Environment and Corporate Finance.
- I was able to show initiative and market awareness working in my family business. I successfully promoted and sold new products and services.

Computing

General: MS Office Suite (Advanced), MS Project (Advanced), MS Visio (Advanced)

Programming: C/C++ (Advanced), Fortran (Advanced)

Other: Photoshop (Advanced), Dreamweaver (Advanced), Mathematica (Advanced)

Miscellaneous

Travel

I enjoy travelling and have recently spent two summers travelling around East Asia. The experience has allowed me to actively plan and enjoy diverse cultural experiences.

Hobbies and Interests

I play badminton, tennis and squash regularly as I enjoy the challenge of performance and the test of endurance.

Other: Shares and markets, Latin Dancing, Reading, and Technology.
