

Draft agenda for TB and C&C meeting on 9.9.2010

Location: DESY project support group conference room 2nd floor, AER 21.
(AER 21 is across the car park from AER19)

10:00 Introduction – C.Youngman (5')

10:05 Status of actions from last meeting, etc. – C.Youngman (15')

10:25 APD single MTCA-4-Physics crate + STRUCK SIS8300 ADC status – D.Wilson (15')
Implications for TB and CC are the software development, use of similar hardware, etc.

10:45 C&C status – NN (25')

Need to know the result of the June 22-24 meeting with XFEL (and Petra 3), design decisions made, and current status. See next talk as well.

11:15 MTCA-4-Physics, timing receiver... status of hard and firmware – K.Rehlich, F.Ludwig (10')
Here we are after availability schedules, firmware status and next steps.

11:30 Discussion CC issues MTCA usage and TR issues (30')

12:00 – 13:00 Lunch

I ask the FEE experts to be concise (changes to previous decisions, issues, status, time schedules...)

13:00 LPD FEE status – NN (10')

13:15 DSSC FEE status – NN (10')

13:30 AGIPD FEE status – P.Goettlicher (10')

13:45 FEA status (including Medipix3 readout card?) – M.Zimmer. (10')

There is a request from H.Graafsma's HASYLAB detector group to investigate whether the TB can be used for high rate Medipix3 readout – we should discuss. If the detector expert cannot make it then we may not be able to discuss.

14:00 – 14:20 Coffee

14:20 TB status – J.Coughlan (25')

14:50 TB cross-point switch – R. Halsall (20')

15:15 Software status – C.Youngman (20')

15:40 – 17:00 Discussion and other items

I need to reread the minutes of the last meeting as there may be something missing... you should also suggest modifications and additions to the schedule. I'll send out a revised version tomorrow at the latest. Data formats, control definitions for software...

17:00 Meeting ends
